

Other services from Best Choice

Best Choice Tile & Grout Cleaning services for floors, showers and countertops keep tile fresh and clean using a powerful, yet safe and gentle cleaning process. We restore the tile to its natural state by removing mold, bacteria and other micro-organisms using a special tile and grout cleaning solution and a high-pressure, hot water rinse. Services include tile and grout sealing to protect against stains and spills which keeps the surface looking fresh and clean longer.

Best Choice Carpet Re-stretching removes "buckles" in your carpet. We use a power stretcher tool to make your carpet as smooth and tight as when it was newly installed.

Best Choice Upholstery Cleaning can make your upholstery look like new again. Using special designed upholstery cleaning tools, our upholstery experts are trained to effectively remove soil while being gentle on fabrics. The special cleaning techniques we use protect colors, resulting in brighter and fresher upholstery.

Exceptional service

"I am really impressed with the care and thorough process Best Choice uses in cleaning my white carpets. They always look like new."

-El Dorado Hills Resident

"Best Choice's owner, James Tatum is not new to the carpet and upholstery cleaning business. He understands his customers like convenience and competence and at competitive prices."

BEST CHOICE

CARPET, TILE & GROUT CLEANING

The Healthy Choice for your Family & Pets.

Are your carpets really clean?

Even if you vacuum regularly, your carpets aren't as clean as you might think. Over time, carpets collect germs, dust mites, pet dander, dust and soil below the surface. All of these are allergy-causing irritants that impact the air quality in your home or office. The solution? Regularly scheduled, professional carpet cleaning for a healthy and safe environment. Plus, regular carpet cleaning can extend the life of your carpet.

Clean first for health, then for appearance

- ✓ Improve air quality
- ✓ Reduce allergens
- ✓ Increase the life of your carpet

The Best Choice cleaning process

The Best Choice multi-stage, truck-mounted, hot water extraction method cleans to the base of your carpet using biodegradable, non-toxic cleaning products for a fresh, clean, healthy carpet. Our unique method allows your carpet to be dry in 1 to 2 hours, allowing you to get back to your daily life sooner. Here's what you can expect with the Best Choice method:

Pre-cleaning inspection to identify problem areas and stains and to secure fragile items
Precondition agent application to high-traffic areas using the Hydro-Force power sprayer

Detailed attention to all edges and tight spots using hot water extraction wand
Application and extraction of Clear Fiber Rinse to remove any remaining detergent residue
Carpet Protector application to protect against stains and spills
Carpet grooming with a hand rake to restore the plush pile the carpet had when it was brand new
Post-cleaning inspection and briefing
